8+ Years
of Experience

PROFESSIONAL SUMMARY

Results-driven Senior Backend Developer with **8+ years of experience** designing and delivering scalable, enterprise-grade SaaS products across the pharmaceutical, analytics, and media industries. Proven track record of architecting end-to-end solutions — from API design and database modeling to cloud deployment — both as a team lead and independently. Deep expertise in **Node.js, microservices, and cloud platforms (AWS, Azure, GCP)**, with hands-on experience in chatbot development, BI tool integration, and real-time video processing. Passionate about R&D, innovation, and writing clean, maintainable code that drives measurable business outcomes.

TECHNICAL SKILLS

Backend	Node.js · Express.js · Nest.js · Microservices · REST APIs · Redis
Databases	MySQL · PostgreSQL · MongoDB · Elasticsearch
Frontend	ReactJS · Next.js · AngularJS · HTML/CSS · JavaScript · jQuery · Bootstrap · Material UI
Cloud & DevOps	AWS EC2 · Nginx · PM2 · AWS Lambda · Microsoft Azure · Google Cloud
AI / Chatbots	Dialogflow · Rasa · Alexa Skills Kit · Microsoft Bot Framework · WhatsApp API · Retell
BI Tools	Qlik Sense API · Power BI · Tableau
Other	FFMPEG · RegEx · InnoSetup · Pascal · NSSM · Bunny API · Meta Ads API

PROFESSIONAL EXPERIENCE

Alembic Pharmaceuticals Limited

Senior Backend Developer (Executive)

Mar 2024 – Present
Mumbai, Maharashtra, India

Designing and managing scalable backend APIs, database integrations, and cloud deployments on AWS EC2 with Nginx and PM2 for critical pharmaceutical industry applications.

Video Framer

Tech: Node.js · FFMPEG · HTML · CSS · Bootstrap

- Engineered a video generation system using FFMPEG that overlays doctor photos and names onto promotional videos — enabling personalised content at scale for medical field representatives.
- Reduced manual video editing effort to zero; output generated programmatically on demand.

Employee Dashboard

Tech: ReactJS · Node.js · MySQL

- Built an analytics dashboard tracking employee output (artwork, video, content, web) across monthly, yearly, and custom date ranges with artist-level and division-level drill-downs.

Resync – Medical Education Platform

Tech: Node.js · MySQL

- Developed a platform allowing doctors to consume instructional videos and complete post-watch quizzes, supporting continuous medical education (CME) compliance tracking.

Predoole Analytics Pvt. Ltd.

Senior Full Stack Developer & Team Lead

Mar 2018 – Mar 2024
Mumbai, Maharashtra, India

Led a cross-functional team of 6 engineers building enterprise analytics and data integration products. Owned architecture decisions, code reviews, sprint planning, and client delivery across 6 years.

Multi-Platform Chatbot with Qlik Sense Integration

Tech: Node.js · Qlik Sense API · Dialogflow · Alexa Skills Kit · MS Bot Framework · WhatsApp API · Telegram API

- Architected a chatbot system that fetches live charts and KPIs from Qlik Sense and delivers them across Microsoft Teams, Google Assistant, Alexa, WhatsApp, and Telegram from a single backend.
- Reduced ad-hoc BI reporting requests by enabling self-serve data access via conversational interfaces.

Qlik Sense Annotation Extension

Tech: Node.js · AngularJS · Qlik Sense Extension API

- Designed and shipped an extension enabling object and chart-level annotations inside Qlik Sense dashboards, improving collaborative data storytelling for enterprise clients.

Log Cluster – Log Visualisation Tool

Tech: Python · Node.js · Elasticsearch · EJS

- Built a web app to cluster and visualise large-scale log data from Elasticsearch, dramatically cutting mean-time-to-diagnose (MTTD) for operations teams.

Tableau-to-Power BI Migration Tool

Tech: Node.js · ChatGPT API · ReactJS

- Led automated conversion of Tableau scripts to Power BI using LLM-assisted transformation pipelines, cutting migration effort by ~60% versus manual rewrite.

DataAccessAuditor Portal

Tech: Node.js · Microservices · ReactJS

- Built a full Qlik Sense Section Access management portal with role-based access control, audit logging, and data security enforcement for enterprise governance requirements.

SaaS License Management System

Tech: Node.js · ReactJS

- Developed a machine-locked license generation and validation system for SaaS products, binding each license cryptographically to the target hardware fingerprint.

Wowizer Windows Service (EXE)

Tech: InnoSetup · Pascal · Node.js PKG · NSSM

- Created a production-grade Windows installer and background service using InnoSetup and Pascal, ensuring secure API key handling and auto-startup via NSSM service manager.

Independent Freelance Consultant

2016 – 2022

Backend & Full Stack Developer

Remote

Delivered bespoke backend solutions for clients across media, marketing, and communications sectors, specialising in video streaming infrastructure, API integrations, and intelligent chatbot systems.

Multiplex Video Streaming Platform

Tech: Node.js · Bunny API · MongoDB

- Architected a full OTT platform where channel owners upload movies and web series; videos are transcoded via Bunny API into HLS format for adaptive streaming on Android and web.
- Designed the content ingestion pipeline, metadata management, and playback APIs end-to-end.

Meta Ads API Automation & Chatbot Integration

Tech: Node.js · Meta Ads API

- Integrated Meta Ads API into a client chatbot enabling campaign data fetch, performance reporting, and automated OAuth token renewal — eliminating manual token management overhead.

AI Voice Agent Call Transfer System

Tech: ChatBotBuilder · Retell API

- Built a dynamic voice-based agent transfer workflow connecting ChatBotBuilder with Retell, enabling real-time call escalation from chatbot to human agents in a contact centre environment.

EDUCATION

Bachelor of Science – Computer Science

2014 – 2017

University of Mumbai, Maharashtra, India

LANGUAGES

Gujarati (Native) · Hindi (Fluent) · Marathi (Fluent) · English (Professional)
